

SAIL  RACING®

SAIL RACING APPOINTED
EXCLUSIVE APPAREL SUPPLIER
TO EMIRATES TEAM NEW ZEALAND
DEFENDER OF THE 36TH AMERICA'S CUP

Sail Racing Design Lab
Total Commitment®

They prepare clear and concise recommendations through drawings, 3D models and descriptions.

Our designers improve existing products, as well as create new items of clothing and gear. And they often work within multi-disciplinary groups that include management, marketing, engineering and our manufacturing specialists. We put our hearts into every detail. This is what we call Total Commitment®.

Emirates Team New Zealand
Official collection

Sail Racing International has been appointed as the Exclusive Apparel Supplier to Emirates Team New Zealand, defender of the 36th America's Cup. We will provide Emirates Team New Zealand with technical racing gear as well as shore gear in their campaign to defend the prestigious trophy. Over the last couple of years, we have spent a lot of time and effort within our Sail Racing

Design Lab® to push fabric suppliers, designers and pattern constructors in the search for lighter more durable materials, better features and more functional fits.

Race Line

With no detail left unchecked, we set out to design a collection that combines lightweight, water-resistance and breathability with style. This was our ambition when we first started developing the new Race Line collection.

We always prioritize the importance of fit and function, and pay full attention to every tiny detail in the process. Everything we develop has a purpose. Each one does not need to be seen or felt, all are simply there to do the job.

Design Lab

Our products are born in our Sail Racing Design Lab.

This is where we create products and systems that optimize function, value and appearance for the benefit of sailors who insist on long-lasting gear that performs without fail.
